Overview of Citywide Camera Presentation

Project Overview: Advancing City Safety with Cutting-Edge Cameras and Technology

Overview of Citywide Camera Presentation

Crime Prevention Through Environmental Design (CPTED), Facilities, and Park Security

Continuous monitoring of public spaces, streets, and vulnerable areas.

Real-Time Crime Center Integration

Real-time feeds to coordinate with officers to address criminal activities.

Camera Distribution

Targeted distribution of cameras allows for a more effective monitoring system.

Traffic Intersection Cameras

Enhancing road safety and managing traffic flow through the city.

Five-Year Road Map

Forward thinking approach to ensure city's surveillance capabilities keep pace with evolving technology.

Questions / Discussion

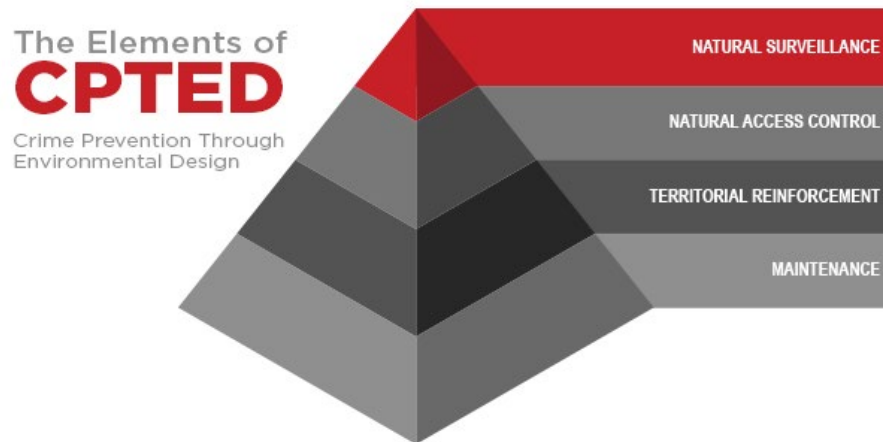

CPETD, City Facilities, & Park Security

Assessing Safety: CPTED, City Facilities, and Park Security Evaluations

CPTED, Facilities, & Park Security

CPTED is defined as “the proper design and effective use of the built environment that can lead to a reduction in the fear and incidence of crime and an improvement in the quality of life.

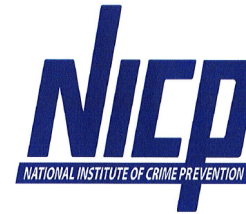

In addition to natural surveillance, cameras provide a mechanism to keep intruders under observation.

CPTED, Facilities, & Park Security

Traffic Intersection Cameras

Improving Roadway Safety: The Critical Need for Traffic Intersection Cameras

Traffic Intersection Cameras

Traffic intersection cameras will be essential for the South Fulton Police Department to boost public safety and streamline law enforcement. These cameras deter violations, aid in accident investigations, and provide crucial real-time traffic data. They enhance roadway safety, support efficient police resource allocation, and contribute to a safer community.
